Open & Experience!

We are pleased to present our new Custom Design Portfolio. This book is just a representation of custom packaging and display items we have created for some of our clients. This sampling might spark ideas on what you want your brand packaging to look like. Custom packaging offers you the benefit of showcasing yourself as a distinguished retailer in the marketplace, it reinforces your brand identity and it conveys the image you wish customers to perceive.

Every item you see in this portfolio can be made in an array of fabrics, numerous papers, plain to fancy textures and a rainbow of colors and ribbons, or we can create something completely different for you depending on your vision.

Let us help you make your dream packaging a reality.

To achieve the perfect custom packaging or display for your store, you will first have to pick up the phone and speak with one of our custom packaging experts with over 25 years of experience at your disposal. You then pick your box collection, choose your color and material and add your store logo. Creating distinctive and cost-effective packaging has never been easier. Let us help give you and your brand a “first impression” that will be remembered.

Working with our factories in both the US and Asia we will manufacture a packaging or display line to your exact specifications. By ordering enough product to sustain you for 12 months we are able to get you the best possible prices. All custom packaging requires Minimum Order Quantities and will be discussed when consulting with our custom experts. Don't worry if you are short on space, we will store the goods for you up to 12 months. You can have quantities delivered as needed from our Quality Gold facilities or receive the order in full; the choice is yours. Delivery and payment options will be discussed when talking to a design team member and determining your needs.

Once a design idea had been finalized, live samples will be ordered for review. Upon review any and all changes can be made before the final order is placed. This will insure that your dream packaging and displays look as great in person as they did on paper.

Another option for fast delivery with low minimum order quantities is to view our NEW Volume 6 Packaging and Display Catalog. You can choose existing In Stock packaging and have your logo printed for that custom look. Most In Stock packaging is available in multiple colors with a wide variety of print colors to make it your own. Add stamped pouches and bags to complete your branded look.

We believe that beautiful, creative custom packaging and custom displays can be a reality on any budget or time frame. All you need to do is call 866.943.6725 and speak with one of our custom experts and let us show you how.

The image features a repeating pattern of white, stylized flowers on a light gray background. The flowers are arranged in a grid, with each flower centered within a diamond-shaped grid formed by thin white lines. A horizontal band of a slightly darker gray color runs across the middle of the image, containing the text "The perfect first impression..." in a black, cursive font.
